

Contents

Transfer learning as an alternative to training a new neural network

3m 53s video

Extracting features with a pre-trained neural network

5m 40s video

Training a new neural network with extracted features

1m 49s video

Making predictions with transfer learning

3m 30s video

6. Using an Image Recognition API

When to use an API instead of building your own solution

3m 33s video

Introduction to the Google Cloud Vision API

2m 14s video

Setting up Google Cloud Vision account credentials

2m 40s video

Recognizing objects in photographs with Google Cloud Vision

3m 3s video
