## Chapter Quiz

```
127.0.0.1 localhost
255.255.255.255 broadcasthost
::1 localhost
```

```
#For Sandbox HDP
127.0.0.1 sandbox-hdp
```

```
# Added by Docker Desktop
# To allow the same kube context to work on the host and the container:
127.0.0.1 kubernetes.docker.internal
# End of section
$
```

to leverage the power of multiple technologies.
